

Louise Gastardi

SENIOR MOTION DESIGNER / CREATIVE TECHNOLOGIST

l.gastardi@hotmail.com +49 157 33315315 Berlin, Germany

PROFILE

From keyframes to pipelines.

Motion designer and creative technologist with a trained, meticulous eye for timing, pacing and brand detail, and the systems to keep that quality at volume. I deliver high-end motion and build the tools that scale it: After Effects and Premiere Pro templates, custom scripts and AI-assisted pipelines from script to publication. Over 10 years in motion and video production, with a degree from Bauhaus-Universität Weimar and full-stack training from Ironhack.

EXPERIENCE

Creative Technologist

03/2026 - present

eduBITES, Berlin

- Build production workflows that bridge manual craft and automation, keeping brand standards and quality high while speeding up production.
- Run an AI-assisted pipeline from script to publication: image and video generation, voiceover, edit, captions and delivery.
- Design and produce digital experiences, from interactive online courses to web pages.
- Develop internal applications that automate cross-team processes, such as turning project requests from sales into structured briefs for the content team.

Motion Designer & Content Creator

03/2024 - 02/2026

eduBITES, Berlin

- Conceived, scripted and produced videos, interactive lessons, quizzes and podcasts for corporate online courses.
- Helped define the company's visual identity and brought it to life on the website I designed, built and still own.
- Built animated templates for video series, so new episodes could be produced quickly in one consistent look.

Motion Designer

02/2015 - 07/2023

Camera Medica

- Designed and animated 2D and 3D graphics for hundreds of client projects.
- Turned client briefs into motion within brand guidelines.
- Handled VFX, compositing and color grading.
- Mentored junior designers and interns.

Video Specialist

10/2014 - 02/2015

Camera Medica

- Shot, edited and color-graded video with professional camera, light and sound equipment.
- Added motion graphics and kept the footage library organized.

SKILLS

Motion & 3D

After Effects (incl. 3D layers) Cinema 4D
